

3rd Data Assimilation Days

Campus Griebnitzsee | 23–24 September 2025

Featuring the 8th Kálmán Lecture on

*„Dictionary learning at the crossroads of
inverse problems and data science“*

with Daniela Calvetti
Case Western Reserve University

Invited Speakers

Harrie-Jan Hendricks-Franssen | Forschungszentrum Jülich |
Data assimilation with terrestrial system models

Daniel Rudolf | University of Passau | *Slice sampling*

Elisabeth Ullmann | TU Munich | *Uncertainty quantification analysis of bifurcations of the Allen-Cahn equation with random coefficients*

Applications for poster talks are invited.

Please register until 31.08.2025

Registration is free but required. Email sfb1294@uni-potsdam.de with your full name, affiliation, contact info, and any dietary restrictions (so we can plan coffee/tea breaks accordingly). If you wish to apply to present a poster, please include the title and abstract of your poster in your registration e-mail. Due to space limitations, not all submissions may be accepted.
